Experience

BuildingConnected, Product Design Intern

May 2018 - Aug 2018 | San Francisco, CA

- Owned a product that will be shipped to almost a quarter million users
- Collaborated with PMs to define product features and enhancements
- Conducted user research interviews and created usability tests
- Developed designs from ideation and wireframing, to mockups that map out interactions, states, edge cases, and responsive web design
- Created a new component for the design system
- Communicated clearly and often with engineers to discuss tradeoffs
- Tested new dogfood code to ensure design accuracy
- Present in-progress designs to exec team, PMs, engineers, and other designers to effectively garner actionable feedback

Alation, UI/UX Design Intern

May 2017 - Aug 2017 | Redwood City, CA

- Spearheaded the design of new features, from understanding user needs, to rapid prototyping, and to documenting specs for engineering
- Built high-fidelity prototypes with HTML/CSS/JS for user-testing
- Took the initiative in revamping the company mascot for marketing and in-product illustrations, providing a delightful UX (and stickers!)

Fireflies.ai, UI Design Intern

Jan 2017 - Apr 2017 | Durham, NC

- Designed a new feature, landing page, and investor deck
- Rebranded the company (logo, color scheme, typography)

Catalyst (Duke Tech Organization), Marketing Chair

Dec 2016 - May 2018 | Durham, NC

- Designed, built, and maintained website using HTML, CSS, and Bootstrap
- Revamped branding, as well as produced print material and web graphics

The Chronicle (Duke Newspaper), Graphic Design Editor

Mar 2016 - May 2017 | Durham, NC

- Recruited and trained 8 new Staff Designers in creating eye-catching infographics through 1:1 tutorials and feedback on drafts
- Oversaw staff's weekly work and schedules

Education

Duke University

Aug 2015 - May 2019 | Durham, NC
